

Nationwide

Diesel Shutdown!

May 1, 2008

This past month thousands of truck drivers all across the nation shut down their rigs to protest the high cost of fuel. The message was heard but not loud enough! Everyone agreed that WE got to do it all together!!! Port truck drivers from the Atlantic, Gulf, and Pacific Coast are uniting and encouraging ALL truck drivers, intermodal, otr, regional, to join us to let our government leaders know that something has got to be done. Truck drivers are the new slaves and we are getting tired of working just to pay the cost of diesel.

Enough is Enough! Some areas want to shut down for a week, May 1 to May 8. Others are taking it to Washington D.C. on a Convoy. WE all must do what WE can, our families are counting on us, and the American public has its' hopes in us. Feed our families or buy diesel. Something is wrong.

Stop all trucks on May 1, 2008.
America will stop for that day.
WE have a problem that needs to be fixed.

Our Soldiers

Bring them home NOW! We need them at home. The price of the war is too high, both in soldiers killed and our economy.

Drivers Rights

Truck drivers realize that it doesn't matter what race you are or where you're from. Abuse from the brokers, dispatchers, and companies hurt everyone. For one day WE must all pull together.

April 30, 2008, Ports Shut Down!

Port Drivers from Los Angeles (west coast), Houston (gulf coast), and Newark (east coast), will begin the shut down one day early in order to make a coordinated public call for ALL truck drivers across the country to shut down the next day, May 1. Port drivers will meet at the usual locations and OTR drivers please meet at the truck stop lobby. Decided what your demands are and how many days (one week?) you are shutting down for and

STAND TOGETHER!!
